II  GENERAL PRINCIPLES OF COUNCIL ACTIVITIES

1  Council Meetings should be convened regularly at the Conferences organized by the IFCS and at other times where necessary, the time being chosen with advance notification as specified in the Rules and the meeting place being selected taking account of the travel costs for the different Member Representatives.

2  The agenda for Council meetings shall contain sufficient information and shall be sent to the Council members at least four weeks before the meeting so that the members unable to attend the meeting will be able to prepare and communicate their decisions, comments, or opinions by mail/e-mail to the IFCS Secretary for inclusion into the meeting documents. An exception is possible if, during the planned Council Meeting at an IFCS Conference, the Council decides to have a second Council Meeting during this same Conference: in this case, the agenda for the second meeting should be fixed during the first meeting.

VII AFFILIATE WORKING GROUPS

Within the IFCS, special working groups may be established, or accepted as affiliate working groups, and will consist of individuals related to IFCS Member Societies or Groups and dealing with special topics in the field of classification and data analysis. This does not imply any formal membership nor any financial responsibility by the IFCS. The IFCS can support such working groups by special consideration in the framework of IFCS conferences, by information in the IFCS Newsletter etc. Suitable guidelines are to be established by the IFCS Council.
VIII EDITORIAL POLICY

It is the intention of the Federation to support the scientific development of classification and data analysis and foster the knowledge of activities of their Member Societies by publishing one or more scientific journals. Book(s) and/or newsletter(s) may also be published. Proposals on the precise editorial policy are to be prepared by the Publication Committee, and are to be approved by the Council.
